

Docket No.: 1509.1021-RED

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re the Application of:

Hideo SHIMADA et al.

Serial No. 10/662,947

Group Art Unit: 2839

Confirmation No. 1496

Filed: September 16, 2003

Examiner: NASTRI, JAVAID H

For: IC SOCKET FOR ELECTRICAL PARTS WITH IMPROVED ELECTRICAL CONTACT

**PETITION UNDER 37 CFR § 1.183 FOR WAIVER OF 37 CFR §§ 1.125(D) & 1.173(A)(1)**

Commissioner for Patents  
PO Box 1450  
Alexandria, VA 22313-1450

Sir:

It is requested that the director suspend the rules prohibiting a substitute specification for reissue applications. In an Office Action dated December 10, 2004, the Examiner indicated that the material from a Certificate of Correction was not incorporated into the original specification. Changes made by Certificate of Correction should be made without using underlining or brackets. It would therefore be difficult, if not impossible, to incorporate the certificate of correction changes by an amendment. Instead, it is submitted that a specification is necessary for this purpose.

This Petition is accompanied by the petition fee set forth in 37 CFR § 1.17(h). If there are any questions regarding this Petition, such questions can be addressed by telephone to the undersigned. Absent any questions, an early favorable decision is requested.

Respectfully submitted,

STAAS & HALSEY LLP

Date: March 2005
